

# PARTNERSHIP ASSESSMENT CHECKLIST

## TOOL 9

### INTRODUCTION

This partnership assessment checklist can be used at the country level when considering potential new partnerships, particularly partnerships with an organisation that you have never previously worked with. By encouraging the rating of various elements under each area, and the formalised documentation of each element, the checklist provides a starting point for an organisational assessment and due diligence. The relevance of each element included in the checklist will vary according to your specific situation, needs and the context. It is recommended to use this checklist as a template, adapting it as necessary to ensure adequate focus on the most important aspects related to your specific proposed partnership.
